STATE CORPS

STRONG BUILDERS

ABOUT US

Established in 2007 as an EPC contractor in Afghanistan, STATE CORPS is a leading infrastructure and engineering company. As part of STATE CORPS global network we are affiliated with State Corps Inc. (registered in Virginia, United States) and State Corps Turkey (operating in the Republic of Türkiye). Our background spans the design and construction of large-scale infrastructure projects in Energy, Transportation, and Dam & Hydropower projects, as well as commercial and residential developments across Afghanistan, Türkiye, and the Middle East.

STATE CORPS has successfully implemented more than 100 design/build and construction projects with a total value more than USD half a billion, funded by the US Government specially U.S. Army Corps of Engineers, Asian Development Bank, World Bank, European Union, the Government of Afghanistan, the Government of Türkiye, and multiple other funding and investing agencies.

Current projects include high-voltage transmission lines and substations, roads and railways, and other commercial and residential works across Afghanistan and Republic of Türkiye.

Our headquarters are located in Kabul (Afghanistan), Istanbul (Türkiye), and Virginia (United States), with previous presence in Dubai (U.A.E.), Doha (Qatar), Muscat (Oman), and Riyadh (Saudi Arabia). We field professional management and technical teams of over 600 professionals, supported by extensive in-country resources and machinery.

STATE CORPS has proven experience operating in war-torn and post-war environments, rebuilding national infrastructure in Afghanistan and abroad. STATE CORPS has also achieved multiple successes in completing large-scale projects in developing countries.

AREA OF ACTIVITY

Planning & Design:

STATE CORPS is a full-service design-build and remodeling company, delivering standard, environmentally friendly, and sustainable projects in Afghanistan and internationally. Our operations include:

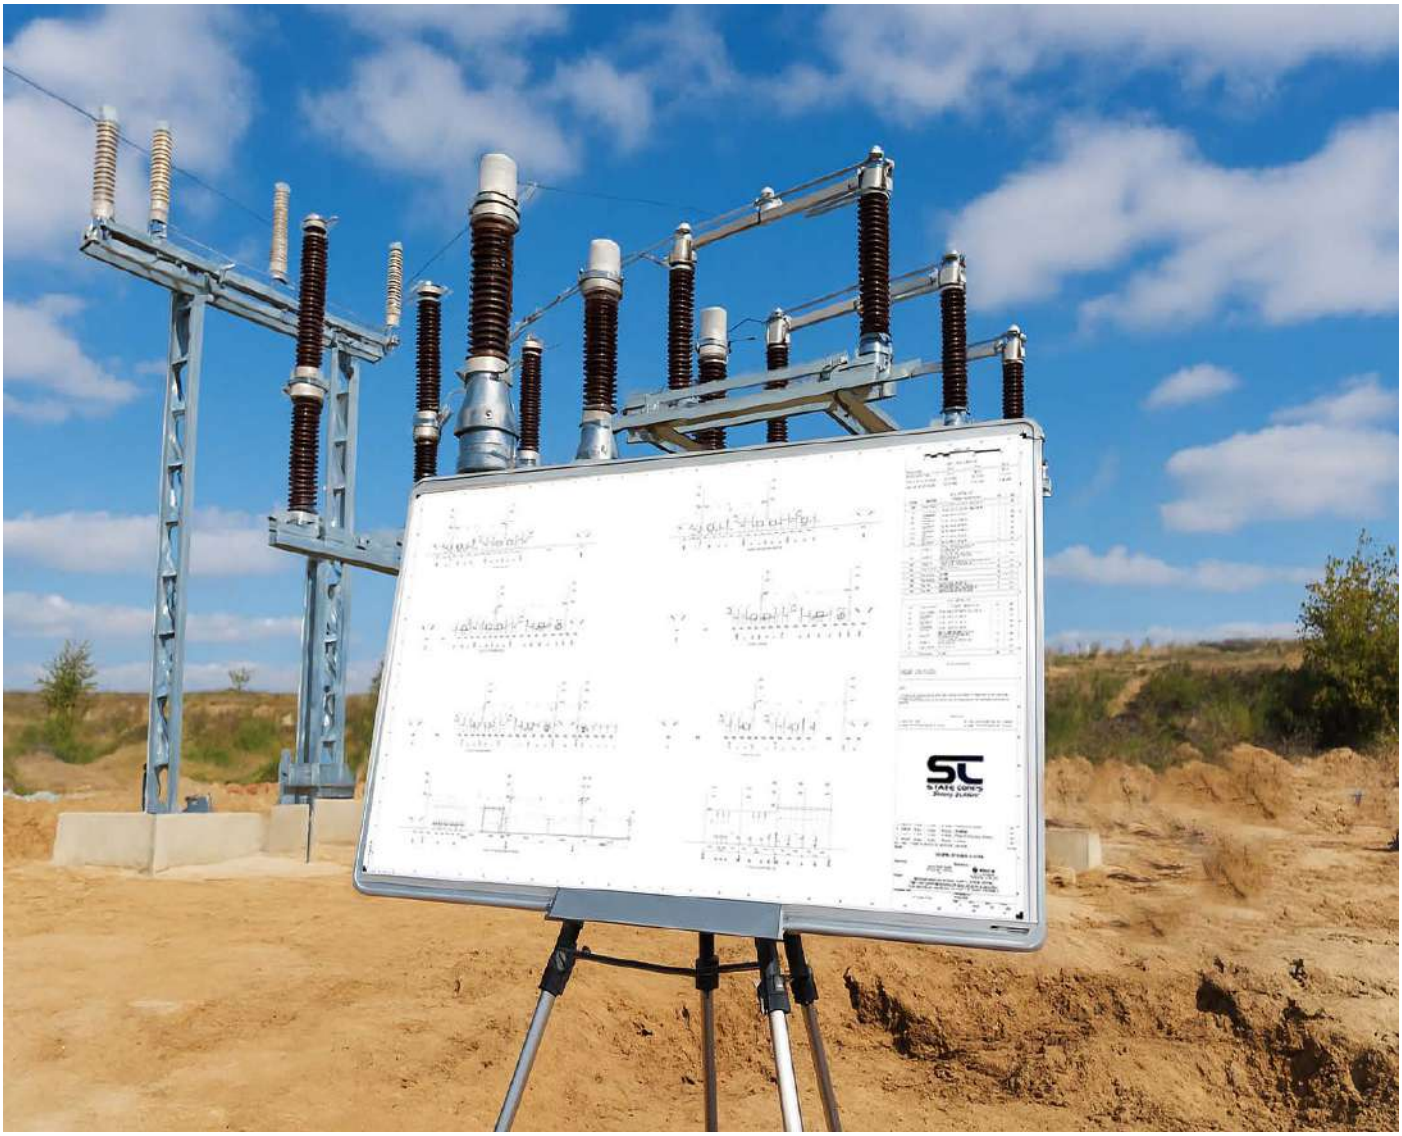

1- Energy

2- Development Projects

3- Transportation

4- Dams

5- Mining

1- Energy

We are at the forefront of Afghanistan's energy sector, delivering reliable and sustainable power solutions. Our record in the design, procurement, and construction of power infrastructure projects has established us as a trusted industry leader.

Overhead Transmission Lines (OHTL):
By successfully designing and constructing over 800 km of transmission lines for Afghanistan's national grid, STATE CORPS has proven leadership in designing, constructing, and commissioning high-voltage OHTL.

Substations:
With delivery of more than 20 substations from 110 kV to 500 kV, we specialize in the construction, expansion and modernization of facilities that underpin stable power systems.

Distribution Network:
STATE CORPS has completed multiple distribution networks across several provinces of Afghanistan.

Renewable Energy:
STATE CORPS develops solar, wind, and other renewable-energy facilities across Afghanistan.

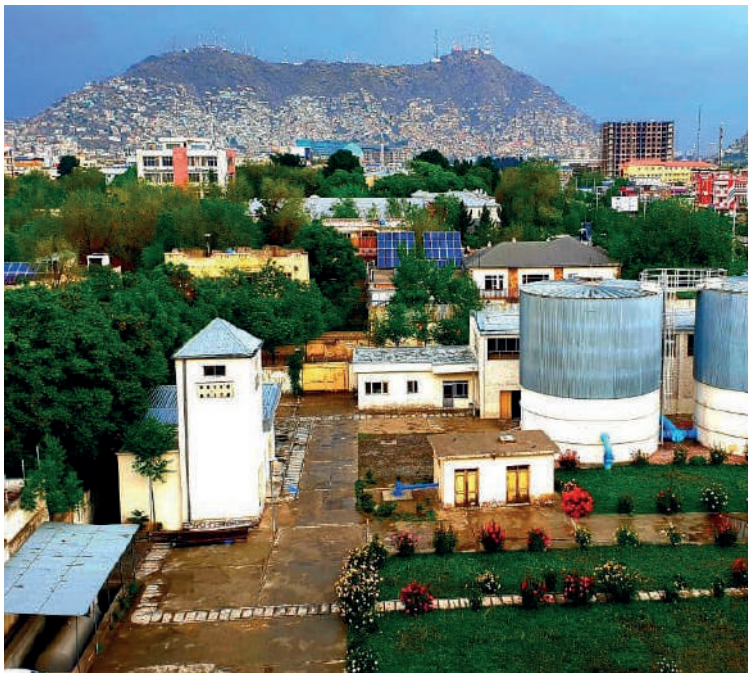

2- DEVELOPMENT PROJECTS

Development Projects – STATE CORPS

Vertical Structures
STATE CORPS has a proven record designing and constructing large-scale military and commercial projects—including military academies and military/police headquarters—in Afghanistan and the Middle East, as well as shopping malls and residential projects in the Republic of Türkiye.

Urban Development
As Afghanistan rebuilds after decades of conflict and welcomes returning immigrants, STATE CORPS plays a leading role in new urban-development initiatives.

3- TRANSPORTATION

Transportation Expertise – STATE CORPS

Railway
Our expertise spans railway design and construction, focused on connecting Afghanistan domestically and positioning it as a route between Central and South Asia.

Road
STATE CORPS has constructed and rehabilitated hundreds of kilometers of roads across Afghanistan.

Airport
STATE CORPS has built multiple MILCON airports and facilities in Afghanistan for military and public use over the past two decades.

4- DAMS

Dams & Water Infrastructure – STATE CORPS

Hydropower
STATE CORPS works with the Government of Afghanistan and international partners to build planned dams using modern technologies and global expertise.

Irrigation Dams
STATE CORPS has experience building irrigation structures and networks.

Water Distribution Networks
STATE CORPS designs, constructs, and rehabilitates water-distribution systems across Afghanistan.

5- MINING

STATE CORPS is managing its mining and mineral business sector through its sister company ARYA MINERAL established in 2005 and headquartered in Kabul Afghanistan

ONGOING PROJECTS

Gulbahar - Panjshir Transmission Line and Substation

Location
Panjshir, Afghanistan

Description
This contract was signed between Ministry of Energy & Water (MEW) and State Corps, it is a design build project, it covers the procurement of design and construction Extension 110kV high voltage Transmission Line from Gulbahar to Panjshir and Substation in Panjshir province.

Contract Number
NPA\MEW\96\W- 1785\ ICB

Arghandi 500kV Reactor Bays

Arghandi 500kV Reactor Bays

Arghandi–Butkhak 220kV Transmission Line

Butkhak 20/110/220kV Substation

Chemtala–Tarakhail 220kV Transmission Line (23 km)

Chemtala–Tarakhail 220kV Transmission Line (23 km)

Arghandi 500kV Reactor Bays

Location
Kabul Province, Afghanistan

Description
The project delivers two 500kV reactor bays at Arghandi Substation, including reactors, control systems, structures, and civil works. Once operational, they will regulate reactive power and enhance the stability and security of Afghanistan's extra high-voltage grid.

Contract Number
MEW/PMO/500KV/ARB-007

Arghandi–Butkhak 220kV Transmission Line

Location
Kabul Province, Afghanistan

Description
This project builds a 220kV single-circuit line between Arghandi and Butkhak Substations. It includes towers, conductors, OPGW fiber, and accessories. The line will boost Kabul's grid reliability, cut losses, and improve regional interconnections.

Contract Number
MEW-ABC/SC/220KV-TL/25005

Butkhak 20/110/220kV Substation

Location
Kabul Province, Afghanistan

Description
The Butkhak Substation project builds a 220/110/20kV facility with switchgear, transformers, and control systems. It includes civil works, cabling, and testing. The substation will expand Kabul's grid capacity and ensure reliable supply for consumers.

Contract Number
MEW-ABC/SC/220KV-SS/BTK/25004

Chemtala–Tarakhail 220kV Transmission Line (23 km)

Location
Kabul Province, Afghanistan

Description
This project builds a 23 km 220kV line between Chemtala and Tarakhail Substations. It includes tower erection, conductor stringing, OPGW installation, and testing. The line will reinforce Kabul's network, integrate generation, and reduce load interruptions.

Contract Number
MEW-ABC/SC/220KV-TL-25003

Tarakhail 20/110/220kV Substation

Location
Kabul Province, Afghanistan

Description
Construction of a new 220/110/20kV substation with transformers, switchgear, protection systems, and civil works. The facility will ease the load on Kabul's network and deliver reliable power to over 200,000 households and businesses.

Contract Number
MEW/EPD/PMO-220kV/TKSS-005

Pashmul–Maiwand 110kV Transmission Line

Location
Kandahar, Afghanistan

Description
State Corps is completing the 110kV transmission line from Pashmul to Maiwand Substation, Kandahar. The project will enhance power reliability, reduce electricity losses, and ensure smooth energy delivery from Kajaki Hydropower Plant to Kandahar.

Contract Number
DABS-020

Sangin North–Kajaki HPP 110kV Transmission Line

Location
Helmand, Afghanistan

Description
State Corps is constructing the 110kV transmission line from Sangin North to Kajaki Hydropower Plant in Helmand Province. The project strengthens regional power infrastructure, reduces electricity losses, and ensures reliable energy delivery to local substations.

Contract Number
DABS-021

Tarakhail 20/110/220kV Substation

Tarakhail 20/110/220kV Substation

Pashmul–Maiwand 110kV Transmission Line

Pashmul–Maiwand 110kV Transmission Line

Sangin North–Kajaki HPP 110kV Transmission Line

Sangin North–Kajaki HPP 110kV Transmission Line

Shaikh Mesri 20/110/220 kV Substation

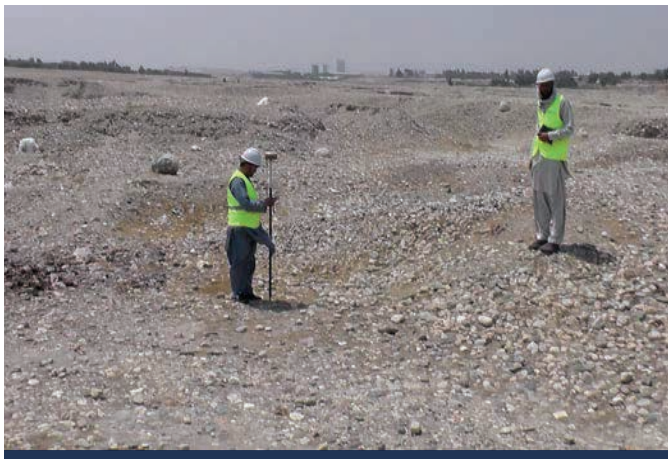

Location
Nanagarhar, Afghanistan

Description
This contract was signed between Da Afghanistan Breshna Sherkat (DABS) and State Corps. It is a design build project and it covers the procurement of plant - design, supply, and installation, testing and commissioning of 220/110/20 kV Substation at Jalalabad Shaikh Mesri in Jalalabad city of Nangarhar province.

Contract Number
NPA/DABS/97/W2138-/ICB

Shaikh Mesri 20/110/220 kV Substation

Shaikh Mesri 20/110/220 kV Substation

COMPLETED PROJECTS

1. Logar- Gardiz 220 kV Transmission Line

Single circuit 220 kV electrical transmission system about 60KM and delivers power from Pul-Alam Substation located in Pul-e-Alam, Logar to a new substation, Gardez Substation, located in Gardez, Paktiya. The transmission system towers are installed for double circuit 220 kV transmission lines.

2. Jabul Saraj-Gulbahar 220 kV Transmission Line

Single circuit 220 kV electrical transmission system is delivering power from Charikar Substation located in Charikar, Parwan to a new substation, Gulbahar Substation, located in Gulbahar, Kapisa. The transmission system towers are installed for double circuit 220 kV transmission lines.

3. Gulbahar- Nijrab 110 kV Transmission Line

Single circuit 110 kV electrical transmission system is delivering power from Gulbahar Substation located in Gulbahar, Kapisa to a new substation, Nejrab Substation, located in Nejrab, Kapisa.

4. Gardiz 220/20 kV Substation

Gardiz Substation is located in Gardiz city Paktya Province. Gardiz substation have one 220 kV line bay, 20 kV yard with indoor switchgear, two 20 kV line bays each capable of expansion to 34 MVA, line dead-end structures for connection to four 20 kV distribution lines. One high voltage 220/20 kV 16 MVA transformer. Substation designs include a control building utilizing the OPGW for SCADA/EMS. The control building have DABS industry standard bus, transformers, breakers, and line protection.

The Substation is designed and constructed according to International standards, it is fully automatic substation and can be controlled from National Load Center via Optical fibers link and SCADA system.

5. Gulbahar 220/110/20 kV Substation

Gulbahar substation will serve the area of Gulbahar and is a junction point for high voltage transmission line to other substations located in Panjshir and Kapisa Provinces.

Gulbahar substation have one 220 kV line bay and two 110 kV line bays. The 220 kV line bay will be used for the connection to the new single circuit transmission system from Charikar Substaion. The 110 kV line bays will be used for distribution to a new substation located in Bazarak, Panjshir and an additional 110 kV line bay for distribution to a new substation, located in Nejrab, Kapisa. It has a 20 kV yard with indoor switchgear, connection to two 220/20 kV transformers rated 16 MVA each, and four 20 kV line bays each capable of expansion to 34 MVA. The 20 kV line bays will be designed and installed.

It has two 220/110 kV autotransformer for distribution to other substations rated 160 MVA each. Substation designs include a control building utilizing the OPGW for SCADA/EMS. The control building include DABS industry standard bus, transformers, breakers, and line protection. It has been sized and equipped with panels to allow expansion as indicated for substation line bays.

6. Construction of 12.38 Km Concrete Road in Dasht-e-Barchi Area

Location
Kabul, Afghanistan

Description
This contract was signed between Kabul Municipality (KM) and State Corps. Through this project the construction of 12.38 Km rigid pavement alongside with water drainage structure in Dasht-e-Barchi region of Kabul province of Afghanistan was accomplished.

Contract Number
NPA/KM/97/W- 2043/NCB

7. (MFNDU – ANDU) Marshal Fahim National Defense University Phase IIIA

Location
Kabul Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Marshal Fahim national Defense University Complex Phase IIIA for Afghan National Army in Qargha Area of Kabul City, Afghanistan was accomplished.

Contract Number
W912DQ 12 C4008

8. ANCOP BN & PRC

Location
Kandahar Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Afghan National Civil Order and Provincial Response Company Compounds at Daman District of Kandahar Province was accomplished.

Contract Number
W5J9LE 12 C0019

9. BP Company Headquarters Boz Areq

Location
Balkh Province, Afghanistan

Description
This contract was signed between USACE andState Corps. Through this project the construction of Border Police Headquarter Compound for Afghan National Police in Kaldar District of Balkh Province was accomplished.

Contract Number
W5J9JE 11 C 0070

10. ANP UP DHQ Qaysar

Location
Faryab Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uniformed Police District Headquarter for Afghan National Police in Qaysar Disctrict of Faryab Province, Afghanistan was accomplished.

Contract Number
W5J9JE 11 C 0071

11. ANP UP DHQ Mazar

Location
Balkh Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uni- Formed Police District Headquarter for Afghan National Police in Mazar City of Balkh Province, Afghanistan was accomplished.

Contract Number
W5J9JE 12 C0018

8. ANCOP BN & PRC

9. BP Company Headquarters Boz Areq

10. ANP UP DHQ Qaysar

11. ANP UP DHQ Mezar

12. BP Yaka Toot

12. BP Yaka Toot

14. ANP UP DHQ Wardoj

15. ANA Gardez Training Ranges

15. ANA Gardez Training Ranges

12. BP Yaka Toot

Location
Faryab Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uni- Formed Police District Headquarter for Afghan National Police in Yaka Toot district of Faryab Province, Afghanistan was accomplished.

Contract Number
W5J9JE 11 C 0031

13. ANP UP DHQ Khost Farang

Location
Baghlan Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uniformed Police District Headquarter for Afghan National Police in Khost Farang District of Baghlan Province, Afghanistan was accomplished.

Contract Number
W5J9JE 10 C 0032

14. ANP UP DHQ Wardoj

Location
Badakhshan Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uni- Formed Police District Headquarter for Afghan National Police in Wardoj District of Badakhshan Province, Afghanistan was accomplished.

Contract Number
W5J9JE 10 C 0054

15. ANA Gardez Training Ranges

Location
Paktia Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project aimed to perform the construction of Afghan National Army Small Arms Training Ranges for National Army in Gardez City of Paktia Province.

Contract Number
W5J9JE 11 C 0002

16. Fire Department "FD" Mazar - e- Sharif

Location
Balkh Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Fire Department required facilities at Mazar - e- Sharif City of Balkh Province was accomplished.

Contract Number
W5J9JE 11 C 0177

17. PRC Logar

Location
Logar Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Provincial Response Company for Afghan National Police ANP' in Logar Province was accomplished.

Contract Number
W5J9JE 0054 11

18. MILCON Cargo Handling Area FOB SHANK

Location
Logar Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the constructions of Cargo Handling inside Shank Forward Operating Base (FOB) was accomplished.

Contract Number
W5J9JE 0026 10

19. ANP UP DHQ Sheberghan

Location
Jawzjan Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uniformed Police district Headquarter for afghan National Police in Sheberghan, Jawozjan Province, Afghanistan was accomplished.

Contract Number
W5J9JE 10 C 0029

16. Fire Department "FD" Mazar - e – Sharif

17. PRC Logar

18. MILCON Cargo Handling Area FOB SHANK

19. ANP UP DHQ Sheberghan

20. ANP UP DHQ Miramor

Location
Daikondi Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uniformed Police District Headquarter for afghan National Police in Miramar District of Daykundi Province, Afghanistan was accomplished.

Contract Number
W5J9JE 10 C 0043

21. ANP UP DHQ Musa Kheil

Location
Khost Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uniformed Police District Headquarter for Afghan National Police in Musa Kheil District of Khost Province, Afghanistan was accomplished.

Contract Number
W5J9JE 10 C 0067

22. ANP UP DHQ Kunduz

Location
Kunduz Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Uniformed Police District Headquarter for Afghan National Police in Kunduz City of Kunduz Province, Afghanistan was accomplished.

Contract Number
W5J9JE 10 C 0057

23. BP Yaka Haji

Location
Faryab Province, Afghanistan

Description
This contract was signed between USACE and State Corps. Through this project the construction of Border Police Company Headquarters Compound for Afghan National Police in Yaka Haji District of Faryab Province was accomplished.

Contract Number
W5J9JE 11 C 0061

20. ANP UP DHQ Miramor

Thank you for your service

Certificate of Appreciation

Presented to:

State Corps Limited

Project: Contract No. W912DQ-12-C-4008, ANA Afghanistan National Defense University (ANDU), Kabul, Afghanistan

For outstanding service and support to the U.S. Army Corps of Engineers, Transatlantic Afghanistan District, Kabul Area Office, New Kabul Compound. Your company's professionalism, dedication, and genuine concern in providing quality service to all has been exemplary, and reflects distinct credit upon you and your Nation. Your company's efforts contribute significantly to the rebuilding of Afghanistan and the Global War On Terrorism during Operation Enduring Freedom
